## OBJECTIVES

Passionate tech enthusiast with strong problem-solving skills and a dedication to innovation. Seeking a role to apply technical knowledge and contribute to software and technology development in a collaborative and dynamic team environment, with a focus on learning and growth.

## EXPERIENCE

**Academic & Personal Projects:** Initiated and successfully completed multiple projects during my academic years which involved problem-solving, time management, team collaboration, independent research.

## SOFT SKILLS

- ◆ Fluent and confident in communication.
- ◆ Quick learning and hard-working ability.
- ◆ Ability to work both in teams and individually.
- ◆ Dedication towards work and time management.
- ◆ Multitasking.

## PROGRAMMING SKILLS

- ◆ **Programming Language:** Python, C++, Dart
- ◆ **Web Development:** HTML, CSS, Bootstrap
- ◆ **Framework & Database:** Flutter, MySQL
- ◆ **Tools:** VS Code, Android Studio, Pycharm, Xampp

## PROJECTS

### Cloud Kitchen Management System | 2023

- ◆ A food ordering website which contains different food items and the users can order foods according to their choice.
- ◆ HTML, CSS, Bootstrap, PHP and MYSQL has been used to develop this website.

### Tip Calculator for Restaurant | 2023

- ◆ This is a mobile application which can calculate the tip amount that is to be paid irrespective of the amount of people or the percentage of the tip.
- ◆ Dart language and Flutter framework has been used in Android Studio to develop the mobile application.

### Student Performance Monitoring System | 2022

- ◆ The website serves both faculty and students, enabling faculty to update and monitor student progress in courses, while students can access their own progress. It offers various other features, including data visualization.
- ◆ HTML, CSS, Bootstrap, PHP and MySQL has been used for the development purpose of this website.

### Simulating the Operations of a Brick Field | 2022

- ◆ A software application has been developed to facilitate a range of operations for both employees and managers within the brick manufacturing facility.
- ◆ Java FXML and raw Java has been used to develop the software.

## EDUCATION

### Independent University Bangladesh (IUB) | 2023

B.Sc (Hons.) in CSE | CGPA(3.10/4) [Expected]

### Cumilla Cadet College | 2017

H.S.C in Science | CGPA 5.00/5.00

### Cumilla Cadet College | 2015

S.S.C in Science | CGPA 5.00/5.00

## EXTRA CURRICULARS

- ◆ **IUB Social Welfare Club:** As a member of the Independent University Bangladesh Social Welfare Club, I made a significant contribution by planning and supervising two memorable events that drew more than a hundred attendees each. These were charity activities with the goal of supporting impoverished areas.
