S.S.C in Science | CGPA 5.00/5.00

SKILLS

- ◆ **Programming Languages:** JavaScript, C++
- ◆ **Web Development:** HTML5, CSS, Bootstrap, Tailwind CSS
- ◆ **Framework & Databases:** ReactJS, Express, MongoDB, MySQL

EXTRA CURRICULARS

IUB Social Welfare Club: As a member of the Independent University Bangladesh Social Welfare Club, I contributed significantly by planning and volunteering for two charity events with over 100 attendees each, aimed at supporting impoverished areas. that drew more than a hundred attendees each. These were charity activities with the goal of supporting impoverished areas.

EXPERIENCE

Zed and Zed IT | 1st Nov 2023 – 31st Jan 2024

Intern Developer

Designed and implemented a file management application for office use utilizing React, Node.js, and Firebase. Collaborated effectively with other interns and successfully met project deadlines set by the assigned supervisor. Provided daily updates on project progress to ensure transparency and alignment with team goals.

PROJECTS

Evergreen E-commerce Website

Designed and developed a comprehensive e-commerce platform featuring user authentication, product listing with advanced filtering and shopping cart functionality. The project also includes an admin panel for efficient management of products, real-time delivery status updates, and user order tracking. The platform provides a robust and scalable solution tailored for modern e-commerce needs.

Technologies Used: ReactJS, Express, NodeJS, Tailwind CSS, MongoDB

Link: <https://evergreen-pied.vercel.app/>

Open Job Website

Developed a dynamic job platform designed to provide a seamless experience for both employers and job seekers. Employers can efficiently create and manage job postings, including detailed role descriptions, responsibilities, and qualifications. Job seekers can explore job listings based on their skills and career aspirations. The platform ensures a responsive and user-friendly interface tailored to modern recruitment needs.

Technologies Used: ReactJS, JSON Server, Tailwind CSS

Link: <https://job-site-dusky.vercel.app/>

Personal Portfolio Site

Designed and developed a personal portfolio website to highlight professional achievements, showcase projects, and share detailed work experience. The platform also includes sections about personal background and readily accessible contact information, providing a comprehensive view of skills and expertise.

Technologies Used: ReactJS, Tailwind CSS, Framer Motion
