Cumilla Cadet College | 2015

S.S.C in Science | CGPA 5.00/5.00

SKILLS

♦ **Programming Languages:** JavaScript, C++

♦ **Web Development**: HTML5, CSS, Bootstrap, Tailwind CSS

♦ **Frameworks & Databases:** ReactJS, Express, MongoDB, MySQL

EXTRA CURRICULARS

IUB Social Welfare Club: As a member of the Independent University Bangladesh Social Welfare Club, I contributed significantly by planning and volunteering for two charity events with over 100 attendees each, aimed at supporting impoverished areas. that drew more than a hundred attendees each. These were charity activities with the goal of supporting impoverished areas.

EXPERIENCE

Zed and Zed IT | Feb 1, 2024 – April 1, 2024

Intern Developer

Designed and implemented a file management application for office use utilizing React, Node.js, and Firebase. Collaborated effectively with other interns and met project deadlines set by the assigned supervisor. Provided daily updates on project progress to ensure transparency and alignment with team goals.

PROJECTS

Fourthgear Car Website

- ♦ Developed a full-stack website for a used car dealership business.
- ♦ Implemented user authentication and product listing features.
- ♦ Added a review system and contact form for direct email communication.
- ♦ Created an admin panel for managing products and removing unwanted reviews.

Technologies Used: ReactJS, Express, NodeJS, EmailJS, Tailwind CSS, MongoDB

Link: https://fourthgearbd.vercel.app/
